Medical Director of Forefront Adult and Pediatric Care & Associate Professor  
Midwestern University Chicago College of Osteopathic Medicine (CCOM)

To: Medical Exemption Team

Re: mRNA injection exemption for \_\_\_\_\_ DOB \_\_\_\_\_

To Whom it may concern,

This letter is written on the behalf of my patient, whose first request for COVID injection exemption has been denied. As a licensed and accredited physician, I have determined to the best of my professional abilities, and agree with my patient, that it in their best interested to defer all mRNA “vaccinations” indefinitely.

The components of these injections are proprietary secrets, so it is impossible to predict how patients will respond on an individual level. Over 80% will experience SIRS (Systemic Inflammatory Response) reactions within the first 48 hrs. My practice has experienced a multitude of severe injuries including brain swelling requiring surgical intervention, multi-organ dysfunction (MODS), atrial fibrillation, clinically significant tachyarrhythmias, heart failure, myocardial infarction, cerebral vascular events, polyneuropathy, hyperemesis, cognitive impairment, prolonged fatigue, and death. These episodes usually occur around 2-4 weeks while some have presented serious symptoms within 24 hrs. of the injection(s).

As a health care provider guided by the *Maxim of Non-maleficance* and *Informed Consent* there is no possible way that I can condone the use of these overtly dangerous inoculations. The results of pre-clinical animal studies regarding mRNA injections are disturbing as large percentages of the animal models died. Obviously, long term studies in humans are lacking, but there is no reason to believe that we will fare any better than the animals tested. We truly have no idea what long term effects are lurking in the immediate and distant future for those receiving these injections.

Regardless of whether the mRNA shots become FDA “approved” none have completed phase studies. They were initiated by an illegal EUA (Emergency Use Authorization) allowing these injections to be released. It was an illegal authorization because for a substance to receive an emergency authorization, there must be no effective treatment for

the illness (which there is, please see [www.C19study.com](http://www.C19study.com) for a comprehensive review) and the therapy in question must pose less risk than the disease (which it does not, please see <https://leohohmann.com/2021/06/21/behind-the-vaccine-veil-doctor-cites-whistleblowers-inside-cdc-who-claim-injections-have-already-killed-50000-americans/> and <https://ifapray.org/blog/lawsuit-shows-government-is-covering-up-45000-vaccine-deaths/>). This fact indicates that the FDA (along with the CDC and WHO) are compromised. At this point “authorization” of these dangerous mRNA substances is a transgression compounded upon a violation.

Everyone receiving these injections are still participating within an unclear phase trial and the only results that the manufacturers can guarantee are side effects. People who receive these injections are still contracting coronavirus and are more vulnerable to naturally occurring genetic variants. The reckless attempts by the pharmaceutical industry to program the immune system disrupts our natural defenses to the point where it can no longer accommodate genetic variations within the pathogen. This promises those receiving mRNA injections an indefinite subjugation to proprietary, experimental, and overtly dangerous therapies. This is a windfall for the medical industrial complex and a perverse incentive to inject as many people as humanly possible.

As individual participants within a corporate structure you should be humiliated by your strong-armed draconian tactics. The complete disregard of *Informed Consent* and corporate sponsored coercion is nothing less than *Medical Fascism*. I am mortified for my colleagues participating in this disgraceful and criminally negligent action.

It would be appropriate to remind yourselves of the Nuremberg Code of 1947. This has become our code of ethics and is the basis of *Informed Consent*, which is supposed to guide us through all forms of medical action.

*The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This latter element requires that before the acceptance of an affirmative decision by the experimental [therapeutic] subject there should be made known to him the nature, duration, and purpose of the experiment [therapy]; the method and means by which it is to be conducted; all inconveniences and hazards reasonably to be expected; and the effects upon his health or person which may possibly come from his participation in the experiment [therapy].*

*The duty and responsibility for ascertaining the quality of the consent rests upon each individual who initiates, directs, or engages in the experiment [therapy]. It is a personal duty and responsibility which may not be delegated to another with impunity.*

[https://media.tghn.org/medialibrary/2011/04/BMJ\\_No\\_7070\\_Volume\\_313\\_The\\_Nuremberg\\_Code.pdf](https://media.tghn.org/medialibrary/2011/04/BMJ_No_7070_Volume_313_The_Nuremberg_Code.pdf)

It is essential to remember that individuals were tried and convicted of crimes against humanity even though in their defense they claimed they were simply following orders.

We are all personally responsible for our actions.

First, Do No Harm.

The Law of the Universe is karmic Balance. Truth is not mocked. No transgression will go unpunished as we all reap what we sow, in this life and beyond.

On many levels, your corporate/institutional dictates are illogical, unscientific, unconstitutional, and immoral. Your silence and capitulation to these transgressive violations signify not only your consent but active participation.

Please rectify your actions and respect my patient's right to decline these thoroughly unsound and dangerous mRNA injections.

Sincerely,

Paul A. Panzica M.D. FACP, FAAP
